The bill, as recommended by the Committee, provides appropriations for fiscal year 2003 legislative branch operations, which totals \$2,671,900,000. Of that amount, \$1,712,207,000 is for congressional operations and \$959,693,000 is for other agencies.

A summary of the recommendations follows:

<i>Fiscal year 2003</i>	<i>Amount</i>

Other agencies	959,693,000
Total	\$2,671,900,000

Conforming with long practice under which each body of Congress determines its own housekeeping requirements and the other concurs without intervention, funds for the Senate are not included in the bill as reported to the House. Current appropriations estimates for the Senate for fiscal year 2003, including those under the Architect of the Capitol, total \$735,100,000.

HIGHLIGHTS OF BILL

SUMMARY OF ESTIMATES AND RECOMMENDATIONS

Budget estimates.—The budget estimates considered by the Committee total \$2,652,401,000. By law, budget requests for the legislative branch are transmitted to the Congress by the Office of Management and Budget (OMB) and the President without change in the amounts submitted by the originating agency.

Committee recommendations.—A total of \$2,671,900,000 in new budget (obligational) authority is recommended for fiscal year 2003. The bill does not include Senate items.

Comparison with fiscal year 2002 appropriations.—Compared with the appropriations enacted for fiscal year 2002 the recommendation of \$2,671,900,000 in new budget (obligational) authority for fiscal year 2003 is an increase of \$128,188,000 or 5%.

STRUCTURE OF THE BILL

The bill is divided into three titles:

TITLE I—CONGRESSIONAL OPERATIONS

Title I—Congressional Operations contains the appropriations for the actual operation of the Congress. Traditionally, Congressional operations has included the House of Representatives (Senate items will be added by that body), joint items, the Capitol Police, the Office of Compliance, the Congressional Budget Office, the Architect of the Capitol (except Senate office buildings and Library of Congress buildings and grounds), the Congressional Research Service, and the Congressional printing and binding portion of the Government Printing Office.

TITLE II—OTHER AGENCIES

Title II—Other Agencies contains the budget for several activities that do not provide primary support to the Congress. For instance, the activities of the Library of Congress, except the Congressional Research Service, are carried in this title. This includes such Library activities as the program to provide books for the blind and physically handicapped the operation of the Copyright Office (including copyright royalty regulation), and Library services to the public and to the government of the United States. The non-Congressional operations of the Government Printing Office are contained in title II, such as the depository library program, which acquires or prints federal publications for distribution to the libraries, and sales of government publications to the general public. Also, although much of the workload of the General Accounting Office is in direct support of the Congress, including work mandated by statute or requested by committees and Members of Congress, the balance of that agency's workload involves its more general legislative requirements. The nature of that work is directed toward the improvement of the operation of the Federal government through review and evaluation of programs and the prevention of fraud and waste, as well as accounting and financial management improvements. The GAO budget, therefore, is carried in title II of

the bill. The Botanic Garden rounds out the items included in title II.

TITLE III—GENERAL PROVISIONS

Title III—contains general provisions.

LEGISLATIVE BRANCH WIDE MATTERS

The President's budget included a legislative proposal under the jurisdiction of the House Committee on Government Reform to charge to individual agencies, starting in fiscal year 2003, the fully accrued costs related to retirement benefits of Civil Service Retirement System employees and retiree health benefits for all civilian employee. The budget also requested an additional dollar amount in each affected discretionary account to cover these accrued costs.

Without passing judgment on the merits of this legislative proposal, the Committee has reduced the dollar amounts of the President's request shown in the "Comparative Statement of New Budget Authority" and other tables in this report to exclude the accrual-funding proposal. The disposition by Congress of the legislative proposal is unclear at this time. Should the proposal be passed by Congress and enacted, the Committee will make appropriate adjustments to the President's request to include accrual amounts.

The Committee further notes that administration proposals requiring legislative action by the authorizing committees of Congress are customarily submitted in the budget as separate schedules apart from the regular appropriations requests. Should such a proposal be enacted, a budget amendment formally modifying the President's appropriation request for discretionary funding is then transmitted to the Congress.

The Committee is concerned that this practice, which has always worked effectively for both Congress and past administrations, was not followed for the accrual-funding proposal. In this case, the Office of Management and Budget (OMB) decided to include accrual amounts in the original discretionary appropriation language request. These amounts are based on legislation that has yet to be considered and approved by the appropriate committees of Congress. This led to numerous misunderstandings both inside and outside of Congress of what was the "true" President's budget request. The Committee believes that, in the future, OMB should follow long-established procedures with respect to discretionary spending proposals that require legislative action.

Millions of citizens are taking advantage of the ease and convenience of electronic commerce, including the use of consumer software and professionals to prepare and file their income tax returns. One innovation now available from private and public sector employers and payroll service providers to assist taxpayers when preparing their return is the ability to electronically transfer and enter W-2 information in the tax software to improve the accuracy and efficiency of the electronic tax preparation process. In every case the employee directs and consents that this electronic transfer take place.

The federal government, including the Legislative Branch, does not currently provide this convenient service to the federal workforce. Currently federal employees must manually data enter the

information from their W-2 when preparing his or her form on a personal computer or online. By making available the electronic transfer of W-2 information, the federal government eliminates the exponential potential for data entry errors and significantly eases the process of preparing a tax return for its employees.

The Committee directs that Legislative branch agencies shall make available to employees the option to, at their direction and with their consent, electronically transfer to private financial service or electronic commerce providers their W-2 information for tax preparation or other financial services effective January 2003 for the transfer of calendar year 2002 W-2 information.

The Committee has included funding for the Federal Mass Transit Benefit Program, for the agencies of the Legislative Branch. The Committee allowance provides a \$100 per month allowance to the employees who participate in the program. The Committee encourages the agencies of the Legislative Branch to support their employee participation in this very important program.

SALARIES, OFFICERS AND EMPLOYEES

2002 appropriation	\$143,478,000
2003 budget estimate	140,263,000

The Committee feels strongly that the House of Representatives should establish a more comprehensive recycling program comparable to objectives established in Executive Order 13101. Along those lines, the Chief Administrative Officer should develop a proposal that ensures that items composed of recovered materials are purchased to the maximum extent practicable. Possible initiatives could also include, buying items made of recycled content material and biodegradable content and working with vendors on possible waste minimization initiatives.

The Committee directs the Chief Administrative Officer to provide a report, to the House Committee on Appropriations and Committee on House Administration, regarding the adequacy of video and audio conferencing capabilities of the House for joint participation in international programs and interparliamentary dialogue with other legislative bodies of the world, and to make such recommendations as may be appropriate for improving the current state of technical capability so as to enhance the ease and frequency of such international efforts.

The Committee wishes to improve the ability of Members, Committees, and staff to efficiently contact a wide range of federal, state and local government officials throughout the country, in and outside their respective districts. The availability of a comprehensive, regularly edited data system of names, titles, telephone and fax numbers, email, physical and mailing addresses of key officials and employees in agencies and/or offices of the federal government, all 50 states, territories, all counties, and cities and towns with populations of 1,500 or more is desirable in times of emergency and for greater efficiency and economy in the course of regular congressional business. The Chief Administrative Officer is directed to report to the Committee on Appropriations and Committee on House Administration on the availability of such a data system and the feasibility of providing this service.

The Chief Administrative Officer is directed to report to the Committees on Appropriations and House Administration, by September 11th, on establishing a pilot program which will provide a method of obtaining an electronic signature and maintaining an electronic record to allow case work, and other items, to be conducted electronically.

The Committee has provided \$4,500,000 under the Chief Administrative Officer (CAO) for committee room renovations. The CAO is to coordinate with the Architect of the Capitol for the continuation of committee room upgrades in conjunction with the House Committee on Administration and the House Office Building Commission.

CAPITOL POLICE

2002 appropriation	\$157,190,000
2003 budget estimate	212,626,000
Committee recommendation	256,175,000

The recommendations in the bill provide a total of \$256,175,000 for the expenses and personnel authorized for police services throughout the Capitol buildings and grounds during fiscal year 2003.

The U.S. Capitol Police are an integral component of the Legislative Branch and perform essential security functions for the protection of Members of Congress, Congressional staff, and the millions of visitors who come to the seat of the Federal government on Capitol hill. Our police force also deals with many additional difficult, frequently unique, security challenges including Presidential inaugurations, visits by the President, other U.S. government officials, and foreign dignitaries, crowd control, demonstrations, and a variety of other events and situations that require competence and professionalism. The Committee strongly supports this fine organization and its many dedicated officers and staff.

SALARIES

2002 appropriation	\$113,044,000
2003 budget estimate	184,526,000
Committee recommendation	175,675,000

The Committee recommends \$175,675,000 to support 1,454 sworn and 326 civilian FTE's for fiscal year 2003.

The House of Representatives recently passed legislation authorizing positions for members of the Capitol Police and civilian employees to not to exceed 1,981 positions. The Committee has approved funding for a total of 1,447 members of the USCP, and 326 civilians. This is an increase of 288 sworn officers and 30 civilians over current levels. While supportive, the Committee is concerned that this is an extremely ambitious level of officers to recruit and train during a fiscal year. The Chief of Police is directed to work closely with the committee to ensure that this recruitment and training effort is achieved.

In addition, the Committee directs the Chief of Police, in coordination with the General Accounting Office, to review the post and

other duty assignments of the Capitol Police to determine if there are an adequate number of personnel to carry out the police mission. The review should include the absolute number of officers for minimum protection of the Capitol Complex, and specialty units, and above optimum protection. This plan should also take into consideration the completion of construction the Capitol Visitors Center. The Chief of Police and the Comptroller General are directed to report to the House and Senate Appropriations Committees and the House Administration and Senate Committee on Rules and Administration no later than March 1, 2003 on their findings.

GENERAL EXPENSES

2002 appropriation	\$44,146,000
2003 budget estimate	28,100,000
Committee recommendation	43,000,000

The sum of \$43,000,000 is recommended for supplies, materials, equipment, training and other expenses of the Capitol Police force during the next fiscal year.

The Committee is impressed with the use of the Responders Assets Management System (RAMS) as deployed by Public Safety System, LLC of Oak Ridge, TN as the primary information security management system for the 2002 Salt Lake City Olympic Games. RAMS is a central repository for preparedness information, which provides the ability for seamless, integrated planning and resource assessment. The Chief of the Capitol Police is directed to report to the Committee on Appropriations of the House of Representatives and Senate by September 11, 2002 on the feasibility of using such a system.

OFFICE OF COMPLIANCE

SALARIES AND EXPENSES

2002 appropriation	\$2,059,000
2003 budget estimate	2,224,000
Committee recommendation	2,059,000

The bill provides \$2,059,000 for the Office of Compliance. This is the same as the amount provided for fiscal year 2002. The general provision for awards and settlements has been included.

The Committee notes that for the past several years the Office of Compliance has consistently under executed the budget provided by Congress ranging from a low of 5 percent to a high of 22 percent. As the Office of Compliance is aware there is an increasing demand for Federal dollars to support ever increasing important government programs. The Committee believes the inability of the Executive Director of the Office of Compliance to execute the annual budget represents a management deficiency that is totally un-

acceptable and therefore has provided no increase in the budget over the amount provided in fiscal year 2002.

The Office of Compliance was established as an independent office within the Legislative Branch to implement and enforce the provisions of the Congressional Accountability Act of 1995. The principal functions of the Office include enforcing 11 civil rights, labor, and workplace laws within the Legislative Branch, which entails administering a procedure to resolve disputes and to provide remedies if violations are found; carrying out an education program for congressional Members, employing entities of the Legislative Branch, and employees with regard to the provisions of the laws applied to the Legislative Branch; and compiling and publishing statistics on the use of Office by covered employees.

Federal standards of internal and management controls and prevailing best practices for governing call for periodically reviewing an organization's structure, functions (i.e., mission and roles), and processes to (1) determine whether they are functioning well, and ensure that they reflect changes in circumstances and (2) ensure sound governance, oversight, and accountability. Since its creation, no comprehensive review of the Office of Compliance and its operations has been conducted. Thus, the Committee directs the General Accounting Office to assess the overall effectiveness and efficiency of the Office of Compliance in fulfilling its responsibilities and role in achieving the overall intent and purposes of the Congressional Accountability Act. The review should include examining the effectiveness and efficiency of the Office's administration and enforcement of the Act and the administrative and judicial dispute-resolution procedures for considering alleged violations of the laws; the operations of the Board of Directors; and the assistance and services provided by the Office to employing offices of the Legislative Branch in fulfilling their responsibilities under the Act. The GAO should make recommendations, as appropriate, to enhance the overall effectiveness and efficiency of the Office of Compliance to achieve the purposes of the Act. The GAO should report its findings to the Committee on Appropriations of the House and Senate by March 31, 2003.

ADMINISTRATIVE PROVISIONS

Sec. 115 requires the Office of Compliance to include in its final publication of a decision or a report any written response received from any person who files a response to any decision or report.

SALARIES AND EXPENSES

2002 appropriation	\$30,780,000
2003 budget estimate	32,390,000
Committee recommendation	32,390,000

The Committee recommends an appropriation of \$32,390,000 for the Congressional Budget Office. This is \$1,610,000 above the current year and is the same as the budget request.

ADMINISTRATIVE PROVISIONS

Section 116 authorizes employees of the CBO to engage in details or other temporary assignments to other government agencies for study and work experience. Section 117 applies to the purchases and contracts made by the Congressional Budget Office.

ARCHITECT OF THE CAPITOL

(CONGRESSIONAL SUPPORT ITEMS ONLY)

2002 appropriation	\$285,467,000
2003 budget estimate	308,304,000
Committee recommendation	267,747,000

The Committee recommends a total of \$267,747,000 for fiscal year 2003 for the various operational and maintenance activities under the jurisdiction of the Architect of the Capitol (AOC) that are directly related to the operation of the Congress. Excluded are Senate housekeeping items which are traditionally left for consideration by that body, as well as the appropriations for the new Capitol Police Buildings and Grounds, the Botanic Garden, and the structural and mechanical care of the Library of Congress buildings and grounds. This amount is \$40,557,000 below the amount requested, and \$17,720,000 below the fiscal year 2002 appropriation.

The Congress has provided ample direction to the Architect of the Capitol regarding the desirability of initiating energy conservation and energy efficiency measures for buildings in the Capitol complex. The Committee believes that there remains significant energy and operations savings that have yet to be realized within the Capitol complex. For that reason, the Committee directs the Architect of the Capitol to initiate energy savings performance contracts for the buildings, facilities and equipment, including the proposed West Refrigeration Plant Expansion, within the Capitol complex. The Committee further directs the Architect of the Capitol to award energy savings performance contracts to multiple contractors in order to mitigate risk and expedite the completion of the projects.

The Committee is encouraged by the progress being made on the review of the Architect of the Capitol's recycling program. Specifically, the Committee is aware of a successful best-practices review and subsequent recommendations on how to create a simplified program that will increase recycling participation and generated revenue while decreasing the amount of contaminated waste. The Committee directs the Architect of the Capitol to implement and expand the recommendations of the best practices review as soon as practicable by developing a pilot project in the Capitol complex, which would address electronic equipment waste recycling. The Committee expects the Architect of the Capitol to provide quarterly report on the recycling program both for traditional and electronic waste.

The Committee remains supportive of the District of Columbia's Anacostia Waterfront Initiative, which contemplates appropriate improvements to parcels of land along South Capitol Street and other streets in the vicinity of the Capitol Power Plant. The Committee wishes to ensure that Congress has complete information

when reviewing the various options for aesthetic improvements to the Power Plant. The General Accounting Office is directed to provide oversight for a study, to be performed by an independent entity contracted by the Architect of the Capitol, concerning the full range of possible improvements to the Capitol Power Plant's appearance, including the lowering of its smokestacks and overall profile.

A summary of the appropriations recommended follows:

House office buildings.—For House office buildings \$58,460,000 has been provided. This amount is an increase of \$4,454,000 above the current fiscal year.

The Committee directs the Architect of the Capitol and the Chief Administrative Officer of the House to work collaboratively to determine the feasibility of constructing public meeting space in the Rayburn and Cannon Office Buildings. The Committee notes with some concern that Members and staff are often frustrated in their attempts to accommodate and meet with visitors and guests when their own personal offices are already occupied. Self-scheduled rooms, when available, are rarely well maintained and often are re-assigned for exclusive use by mid-session. Use of the Rayburn Cafeteria is unpredictable because of its early closure during recess and for scheduled special events. Opportunities for meetings outside Members' offices in the Cannon building are even more limited given its lack of a cafeteria. As a part of this study, the Committee recommends exploring the option of constructing meeting space in both office buildings analogous to the 24-hour dining space in the Longworth Cafeteria.

The Committee is concerned with the confusion, expressed by visitors to the House office buildings, regarding the building/room numbering process currently in place. The Committee directs the Architect of the Capitol to prepare a report, by November 1, 2002, regarding options for renumbering the House office building suites in a more user-friendly fashion.

LIBRARY OF CONGRESS

(EXCEPT CONGRESSIONAL RESEARCH SERVICE)

The Committee recommends appropriations totaling \$422,243,000 for the operations of the Library of Congress (except the Congressional Research Service, which is carried in title I of the bill) for fiscal year 2003. The following table summarizes the allocation of funds by appropriation account:

Library of Congress

<i>Item</i>	<i>Amount</i>
Fiscal year 2003:	
Salaries and expenses	\$351,947,000
Copyright Office	13,774,000
Books for the blind and physically handicapped	56,522,000
Total	\$422,243,000

TOTAL RESOURCES

The Library also receives funds from other appropriations and sources estimated to total \$291,510,000 for fiscal year 2003 including \$86,241,000 for the Congressional Research Service in title I of the bill, and \$35,319,000 appropriated to the Architect of the Capitol for the structural and mechanical care of the Library buildings. The remainder consists of receipts from copyright fees and the sale of catalog records and publications, income from gift and trust funds, and reimbursements for services performed for other Government agencies. Thus, a total of \$715,976,000 from all sources will be available to the Library during the next fiscal year. Of that amount, \$197,084,000 (27.5%) is for support of Congress. The balance is general government or public service in nature, such as the Copyright Office, the National Library Service, the Federal Library

and Information Network (FEDLINK), and the many services conducted for the Nation's libraries.

The appropriations in the bill for all Library programs will finance the level of full time equivalent positions currently projected for fiscal year 2003, now estimated by the Library of Congress at 4,206. In addition, there are several hundred other positions financed through reimbursable and gift and trust fund programs.

A breakdown by source and amount of funding follows:

Total resources, Library of Congress, 2003

<i>Item</i>	<i>Amount</i>
Appropriations:	
Title I—Congressional Research Service	\$86,241,000
Title II—Library (direct)	422,243,000
Architect of the Capitol, Library buildings and grounds	35,319,000
Total appropriations (in bill)	\$543,803,000
Receipts from copyright fees, sale of catalog records and publications, and sponsors of international legal database	\$37,952,000
Gift, trust and revolving funds	128,244,000
Reimbursement for services performed	5,977,000
Total	\$715,976,000

SALARIES AND EXPENSES

2002 appropriation	\$329,457,000
2003 budget estimate	350,271,000
Committee recommendation	351,947,000
(Plus: Authority to spend receipts)	(6,850,000)
Total available	\$358,797,000

The sum of \$351,947,000, plus \$6,850,000 in offsetting receipts, is recommended for salaries and expenses, which is the basic appropriation for the operation of Library programs, an increase of \$1,676,000 above the budget request and an increase of \$22,490,000 above the current level. This level of funding provides for 2,809 FTE's, including all associated mandatory costs.

The Committee is very concerned with the Library's implementation of the new hiring system and the Library's overall inability to utilize the funds provided for full time equivalents (FTE's). This underutilization was apparent during fiscal year 2002 when the Library realigned \$15 million dollars from salary and benefit accounts to contract service accounts to get work accomplished for which the Committee provided FTE funding. This \$15 million dollars was double the amount provided for new FTE's for fiscal year 2002 and in fact was greater than the amount provided for the prior three fiscal years. The Committee believes that these factors coupled with the fact that the Library requested an increase of 169 FTE's for fiscal year 2003, of which 12 were for the Congressional Research Service, should have received further management review and analysis before being requested. Therefore, the Committee directs the Library to allocate the required financial, personal resources, and management oversight in order for the Library's hiring process to get back on track. To assure that the highest priority is given to this problem by the Library, the Committee directs the General Accounting Office to provide direction and support to the Library and report to the Committee on Appropriation's of the House of Representatives and Senate, by February 1, 2003, on the

progress made by the Library and GAO's observations and recommendations, as appropriate, for improvements.

The Law Library has requested funding of \$3,063,000 and 6 FTEs to support their Global Legal Information Network System (GLIN). Funding represents one year of a five-year, \$12,700,000 program to develop and implement a fully functional GLIN system with better security, multilingual search capabilities, and the ability to incorporate additional categories of legal information such as court decisions as well as retrospective materials. Funding would support the system upgrade, travel for targeted recruiting, input of retrospective materials, and additional staff to provide the technical and administrative system support.

The Committee applauds the Law Library's efforts in developing the GLIN system. Through the application of appropriate technology, the Law Library was able to create a database and network, laying the foundation for a digital law library. The GLIN system will improve efficiencies in staff's time and reduce the amount of physical space needed to store paper products, replace analog with digital, and organize information for unlimited access. Currently there are 15 countries contributing to GLIN. The Law Library has targeted additional countries to be added to GLIN in order to support the interests of the Congress and the nation's efforts to build alliances around the world. However, without major technical upgrades, including improved functionalities, enhanced security, and "user friendly" features that are being requested by potential GLIN members, the ability to recruit new countries is limited.

The Committee is providing \$3,063,000 for the GLIN project this fiscal year. However, funding does not assume that the full \$12,700,000 will be provided. As a result, the Law Library should re-evaluate how best to utilize the funding provided this fiscal year with the assumption that no additional funding could be provided in future years. In addition, the Committee directs the Law Library to explore the possibility of working with the legal community to assist with funding the GLIN project.

Funding is provided for the continuation of the "Joining Hands Across America: Local Community Initiative" project, as approved by the Library, for the purpose of teaching educators how to incorporate the Library's digital collections into school curricula.

The Committee believes that the Library of Congress could better be served regarding facilities management if the Library, rather than the Architect, assumed responsibility for the daily facilities management of the Library's buildings and grounds. This change in daily management will provide the Library of Congress greater ability to establish facility priorities and at the same time lessen the workload of the Architect's organization, which has greatly increased as result of September 11, 2001, Capitol wide complex improvements, and construction of the Capitol Visitor Center. In this regard the Committee directs that the General Accounting Office, working with the Library of Congress and the Office of the Architect of the Capitol prepare a report regarding the feasibility of transferring day-to-day operation of the Library's facilities to the Library. The Committee expects that the study apply the facilities management concept currently utilized by the General Accounting Office. The Committee directs that this study incorporate rec-

ommendations for the transfer of current AOC employees, whose duty station is currently within the Library of Congress Buildings and Grounds, to other organizational entities within the Architect of the Capitol organization and that the study be provided to the Committees on Appropriations of the House and Senate by March 1, 2003.

Section 202 provides obligational authority for various Library programs. ADDITIONAL VIEWS

We are pleased to have worked with the majority to craft a Legislative appropriations bill that should receive the support of the full House.

Fortunately, the 302B allocation this subcommittee received was very favorable. The allocation allowed the subcommittee to accommodate two important priorities: (1) making sure this institution is secure from any future terrorist threat, and (2) ensuring that the Legislative-branch agencies have the resources they need next year to maintain their high level of professionalism and accountability.

The allocation also enabled the subcommittee to provide Legislative-branch employees more equitable treatment relative to their Executive-branch counterparts, including a 4.1% annual wage adjustment (COLA) for all employees effective in January 2003, and funding for a full \$100 monthly transit benefit for eligible employees of all agencies. Authorization and funding are also included for a student loan repayment program for the House, which will resemble programs in the Senate, other Legislative-branch agencies, and the Executive branch. This program will in particular help Members, committees and the House officers to attract and retain qualified employees.

The Liberty of Congress, the General Accounting Office, Congressional Budget Office, and the Government Printing Office will largely receive what they requested. We are pleased that the bill funds the full complement of additional officers that the Capitol Police can hire and train next year. To the current workforce of 1,166 officers, the bill adds funds for an additional 288, to bring the Police to a total of 1,454 sworn personnel. The bill makes funds available for a 5% pay increase for Capitol Police personnel (including civilians) effective this fall. It includes a number of other provisions designed to reduce officer attrition and improve recruitment, and administrative and management reforms.

We wish to thank Chairman Taylor and his staff for working so cooperatively with us on this measure, as they did last year. Together we have written an excellent bill, and we urge all Members to vote for it.

We also wish to take this opportunity to applaud the many selfless offices and individuals who worked, often around the clock, to keep the Legislative branch of government operating after the September 11th and anthrax attacks. The efforts of thousands of dedicated Legislative-branch employees deserve recognition and our gratitude.
